

AGLOW NORTH CENTRAL REGION PRAYER BLITZ

Operation Rolling Thunder ~ The Strategy

PURPOSE - Identify, honor and connect the watchmen (prophets & prophetic intercessors) within the same geographic area.

Operation Rolling Thunder (ORT) is based upon Psalm 18. King David cried out to God and then God thundered from heaven as He uttered His voice and scattered David's enemies.

If there was ever a time when the Church needs to hear God's voice, it is now.

In each city, county, state or nation, one church or ministry is asked to take responsibility to cover one day with 24/7 prayer. Most churches/ministries are too small to do 24/7 prayer every day of every week throughout the year. But if we work together with one church/ministry taking one day we can establish 24/7 prayer immediately. It is Ephesians 4:16 in action. Hence every day we pray, and every day God answers. Prayer rolls over from day to day, hence, Operation Rolling Thunder (ORT).

Phase 1 - Washington state has served as a prototype for this strategy. By May of 2007 they had enough churches in Washington state praying at least one day each month so that the whole state was covered with 24/7 prayer. But the goal is to keep driving responsibility down to the lowest level. Hence the next goal was to encourage churches in each county and city to follow suit. All it required is 31 churches each taking one day per month, or seven churches each taking one day per week, or some combination thereof.

Phase 2 - Each church/ministry would agree to continue to cover their one day each month with 24/7 prayer. The goal is to help each city (county, province, state, region, network, or nation) do their part in establishing ongoing 24/7 prayer all year long and to connect the leaders from all 7 spheres of society (church, business, government, media, education, healthcare and the family) who are passionate about transforming their local area.

As members of ORT they assist in mobilizing and coordinating a 24 hour prayer watch in their city or county. They also facilitate the gathering of spiritual intelligence from watchmen and intercessors. This can be gleaned from prayer walking, historical research, demographic research, and gather prophetic reports as it relates to their area. Then, they can seek the Lord for transformation strategies appropriate for their county, city or community.

This strategy unites the body of Christ through a common vision (transformation) based upon passion for a common geography (city, county, region, state, nation, etc...). It also connects and networks the body of Christ with as many leaders as possible from the 7 spheres of society (church, business, government, media, education, healthcare and the family) to pray and work together to transform your church, city, county or region. It strives to develop relationship and teamwork with as many local churches/ministries as possible.

"In Desert Storm the Lord showed me what was to come upon the earth and that one day there would be a reformation in the body of Christ for the purpose of transforming cities and regions through the gospel of the kingdom. We would relate to each other not so much based upon our denomination but upon our common call to transform a common geographic area such as a city." ~ Tim Taylor, founder of ORT In partnership with Watchman Ministries International, 4004 NE 4th Street, Suite 107-350 Renton, WA 98056

Aglow's Participation

The North Central Prayer Blitz, which is in cooperation with Roberta Preston, our Aglow International Emergency Preparedness Coordinator. She in turn is partnering with Watchman Ministries International. This is an effort to cover the entire North Central Region (WI, IL, MN, and IA), with continued 24/7 prayer, praise and worship. Each Area Team and each local Lighthouse will volunteer for a 24 hour prayer assignment until each day is covered by someone in prayer.
