

## AGLOW Southern WI AREA NEWSLETTER

### Lighthouse Development

Volume 2, Issue 10 10/09/09

A VP of Lighthouse Development serves as a chief “interest-creator” for Aglow in our area. Barb Rich recently joined the Area Team, and will now serve Southern Wisconsin in focusing on establishing new Lighthouses in our communities, neighborhoods, workplaces and prisons. She will follow through with those who express an interest in starting a new Aglow Lighthouse, and she will be on the look-out for those places where there is a need for more than one LH! It is our hope to introduce Aglow to 2 or 3 new communities, neighborhoods, or workplaces each year. If you know of someone in our area who is interested in Aglow...let Barb know how to contact them.

### Coming Events

### Reaching Out in Your Community!

Aglow Lighthouses impact their areas by starting new ministries and keeping current ministries steadily on course. Clare Liebe was a wealth of inspiration and encouragement as she served as our VP of Ministry Development. She was diligent to gather and make available resources that would help the local Aglow ministries to be effective. We are thankful for Clare’s faithful service and wonderful sense of humor!

As Clare steps down...Bonnie Howard is now poised to take over in the task of keeping the concept of evangelistic outreach at the forefront of each community activity. She will keep on challenging lighthouses to minister to non-Christians, in addition to supporting and encouraging those who already have a relationship with God. Bonnie has much wisdom and experience to share with both “brand new” and “established” Lighthouses. Our Lighthouses are constantly looking for and developing the gifts and talents of our members and linking them to ministry opportunities suited especially for them! Our leaders are always looking at their own communities and assessing the needs that exist...then coming up with creative ways to partner with others and meet those needs.
